

RENOLIT MP **(Multipurpose Grease)**

A multipurpose Lithium based grease suitable for cases where high temperature and water contamination is encountered and it has excellent resistance to water washout and oxidation.

Description

Fuchs Renolit MP is an amber colored, buttery smooth lithium grease suitable for a wide range of use. **Fuchs Renolit MP** has very good mechanical stability and excellent oxidation stability, ensuring long life. It is specially inhibited against rust and corrosion and has superior resistance to the washing out action of water. **Fuchs Renolit MP** maintains good pump ability, even in cold weather, and is ideal for centralized grease systems.

Benefit

The excellent oxidation resistance, as indicated by a low drop in pressure after 500 hours at 99°C and under 110 psi of oxygen indicates longer life in bearing with much less deterioration than greases of lesser quality.

Application

Fuchs Renolit MP is true multipurpose grease and is suitable for applications found throughout industry, such as electric motor bearings, fan bearings, pump bearings and other plain and antifriction applications.

- **Fuchs Renolit MP** is suitable for bearing temperatures up to 120°C,
- It is recommended for use where water contamination is encountered.
- It is suitable to bearings operating at temperatures as high as 120°C or higher, if replenished frequently.
- Its pumpability makes it especially suitable in centralized grease systems, even at low temperatures.

Product Characteristics

Properties	Unit	Value	
Fuchs Renolit MP		No. 2	No. 3
Color, Appearance		Yellow, Smooth	Yellow, Smooth
NLGI Grade		2	3
Soap Type		Lithium	Lithium
Worked Penetration @ 25°C	60 stokes, typical	277	230
Base Oil Viscosity @ 40°C	cSt	130-150	130-150
Oxidation Stability	Pressure bar	0.3	0.3
Dropping Point	°C	190	196
